CHANGE IN TARGET INTEREST RATE – 4.75%

Angas Prime provides investors with a target rate of return on investment. The target rate of return is a variable rate that is reviewed by the Angas Securities Board every three (3) months.

At its meeting on 26 November 2021, the Angas Board moved to reduce the Angas Prime target rate to 4.75% p.a. effective from 1 January 2022.

Angas Prime must ensure that its lending products remain competitive in the marketplace and it attracts high quality assets as security for the loans that it makes.

This small reduction in the rate of return will continue to ensure that this continues and that risks are managed responsibly and appropriately.
